

## Stage MARC records for import

- Select a MARC file to stage in the import reservoir. It will be parsed, and each valid record staged for later import into the catalog.
- You can enter a name for this import. It may be useful, when creating a record, to remember where the suggested MARC data comes from.

### Upload a file to stage

File:  koha-3rd-test.mrc

Upload file

Upload progress:  100%

### Pre-fill values with profile?

Profile:

When you select a profile it pre-fills your form with profile values.  
Later you can modify your form and that's what matters on import.

### Settings
