

Renew should be disabled in OPAC if the issue is on-site

1.-- Today is...

```
Archivo  Editar  Ver  Buscar  Terminal  Ayuda
claudio@debian:~$ date
dom jun 28 11:38:29 ART 2015
claudio@debian:~$
```

2.-- Renewals setting is on

n	Renewals allowed (count)
	51
	<input type="text"/>

3.-- On-site checkouts setting is on

Circulation preferences

▼ Checkout Policy

Preference	
OnSiteCheckouts	<input type="button" value="Enable"/> the on-site checkouts feature.
OnSiteCheckoutsForce	<input type="button" value="Disable"/> the on-site for all cases (Even if a use

4.-- Perform an on-site checkout

Checking out to [redacted] **(14857776)**
Enter item barcode:

☐ Automatic renewal
Specify due date (DD/MM/YYYY) :
 ☐
☒ On-site checkout 

5.-- After issuing renew is disabled in staff client even if override renewal limit is on. I agree. Perhaps override renewal limit may be more flexible here...

1 Checkout(s) 0 Holds Restrictions **RENEW IS DISABLE**

Due date	Title	Item type	Checked out on	Checked out from	Call no	Charge	Fine	Price	Renew select all none
Today's checkouts									
28/06/2015	Heraclitean fragments : 213 (On-site checkout)	Books	28/06/2015 11:22	Biblioteca Miles Davis	182/.4	0.00	0.00	0.00	0
Totals:						0.00	0.00	0.00	Renewal due date: Forgive fines on return

Always show checkouts immediately ☒

Override renewal limit: ☒ ☒ Renew or return checked items

6.--- However, renew is enabled in OPAC. I think this is wrong.
