```

## Circulation rule

Renewals allowed (count)	Renewal period	No renewal before
2	1	
<input type="text"/>	<input type="text"/>	<input type="text"/>

## Sysprefs set to “block”

OverduesBlockRenewing	When a patron's checked out item is overdue, <input type="text" value="block renewing for all the patron's items."/>
RestrictionBlockRenewing	If patron is restricted, <input type="text" value="Block"/> renewing of items.
<input type="button" value="Save all Circulation preferences"/> <input type="button" value="Cancel"/>	

## Checkout list ok

## Automatic\_renewals.pl failed.

Due date ↕	Title ↕	Item type ↕	Location ↕	Checked out on ↕	Call no ↕	Renew select all   none
Previous checkouts						
26/01/2016	Justice : by Sandel, Michael J. 101	Libro	General	26/01/2016 06:48	172/.2	0 Not allowed: overdue (2 of 2 renewals remaining)
THIS OVERDUE IS FICTITIOUS BECAUSE AUTOMATIC RENEWAL FAILED. IN MY OPINION DUE_DATE UPDATE MUST HAVE HAPPENED YESTERDAY						Totals: Renewal due date: <input type="text"/> Forgive fines on return: <input type="checkbox"/>

There's no hold nor other condition affecting this loan.

## Now I will change syspref vars

RestrictionBlockRenewing	If patron is restricted, <input type="button" value="Allow"/> renewing of items.
--------------------------	--

## Checkout an item again

Due date ↕	Title ↕	Item type ↕	Location ↕	Checked out on ↕	Call no ↕	Renew select all   none
Today's checkouts						
27/01/2016	Justice : by Sandel, Michael J. 101	Libro	General	27/01/2016 07:08	172/.2	0 Scheduled for automatic renewal (2 of 2 renewals remaining)
Totals:						Renewal due date: <input type="text"/> Forgive fines on return: <input type="checkbox"/>

## Execute cronjob

```
desdecasa@v0278:~$ sudo koha-foreach --enabled /usr/share/koha/bin/cronjobs/auto  
automatic_renewals.pl  
desdecasa@v0278:~$
```

## Nothing happens...

Due date ↕	Title ↕	Item type ↕	Location ↕	Checked out on ↕	Call no ↕	Renew select all   none
Today's checkouts						
27/01/2016	Justice : by Sandel, Michael J. 101	Libro	General	27/01/2016 07:08	172/.2	0 Scheduled for automatic renewal (2 of 2 renewals remaining)
Totals:						Renewal due date: <input type="text"/> Forgive fines on return: <input type="checkbox"/>

Tomorrow the cronjob will execute again but the loan will be overdue and syspref var will block again de renewals, and so on, over and over again. Thus, renewals will never happen....

**Conclusion: Syspref var works fine but not synchronized with automatic\_renewals.pl**
