Flame Graph

The [Flame Graph](#) above is a visualization of the time spent in *distinct call stacks*. The colors and x-axis position are not meaningful.

See [all 22493 subroutines](#)

You can view a [treemap of subroutine exclusive time](#), grouped by package.

NYTProf also generates call-graph files in [Graphviz](#) format: [inter-package calls](#), [all inter-subroutine calls](#) (probably too complex to render easily).

You can hover over some table cells and headings to view extra information.

Some table column headings can be clicked on to sort the table by that column.
